MAINSPRING
HEALTHCARE PARTNERS

FOR THE STATE OF COLORADO

When a nursing home is failing, we run it.

Licensed administrators who take over a troubled facility, make it safe, fix the survey problems, control the money, and hand it back.

PREPARED FOR

Colorado Department of Public Health and Environment
Health Facilities and Emergency Medical Services Division

PREPARED BY

Mainspring Healthcare Partners
Felix Strickland III · November 2026

WHAT WE DO

Five things, done by people who have run buildings.

1

Take over and stabilize

A licensed administrator and a director of nursing in the building within days. Residents safe first.

2

Fix what the survey found

Deficiencies corrected, with evidence, so they stay fixed at the next visit.

3

Control the money

Cash, payroll, vendors and resident trust funds under control from day one. A full accounting at the end.

4

Report to the Department every month

Census, staffing, clinical risk, cash and open deficiencies, in whatever format you ask for.

5

Hand it back, sell it, or close it safely

A new operator, a sale, or an orderly closure with every resident placed. The ending is decided up front.

We can serve as the temporary manager, the receiver, or the monitor — for skilled nursing, assisted living and memory care.

HOW IT WORKS

Four stages. The building sets the pace.

FIRST 30 DAYS

Take control

Leadership in the building. Residents safe. Money under control. A full picture of what we are dealing with, and a plan with dates for you.

NEXT

Correct

Survey problems fixed. Staff rebuilt. Vendors and payroll current.

THEN

Rebuild

Systems that hold without us. Census and cash steady. Options prepared for you.

EXIT

Resolve

Hand-off to a qualified operator, or a safe closure. Every resident placed, every dollar accounted for.

Days
to have licensed leadership in the building

Monthly
reporting in the Department's format

Fixed
fees agreed in writing before we start

Only the first 30 days have a set length. How long the rest takes depends on the building: its survey history, its staff, its money. We set that timeline with you at the end of the first 30 days and report against it every month.

Colorado law allows the Department to put a temporary manager or receiver into a failing facility, and the receiver must be a licensed nursing home administrator. Our engagement lead is one.

RESULTS

What happened in buildings our leadership ran.

CONTINUING CARE COMMUNITY · MICHIGAN

Back on budget, off agency staffing, through survey — and sold.

Staffing reset to budget, department heads managing hours daily, agency staff eliminated. The annual survey was completed during the turnaround and the owner sold on a stable operation.

$40k
saved every month

$320k
saved in eight months

0
agency staff by the end

Sold
on a stable operation

SKILLED NURSING & REHAB · TENNESSEE

Rehab census more than doubled. Survey with zero deficiencies.

Problems ranked and assigned to department leaders. Short-term rehab rebuilt around Medicare and managed care. Survey readiness treated as a daily habit.

2×
short-term rehab census

50+
admissions a month

$250k
added revenue a month

0
deficiencies, 2019 annual survey

These results come from our leadership's own operating record before Mainspring was formed. Figures are as reported by the leader responsible; survey results as recorded by the state. Facilities are not named; references available on request.

WHO YOU WOULD WORK WITH

Two principals. A network of licensed leaders behind them.

FS

Felix Strickland III

Managing Director, Operations and Compliance

Licensed Nursing Home Administrator. Sixteen years running skilled nursing, assisted living and memory care as Administrator, Executive Director and CEO, in several states. Has taken over failing buildings and led them through survey.

felix@mainspringhcp.com

DB

David Bloch

Managing Partner

Twenty years in operations and finance — IBM, Verizon, private equity and real estate ownership — now applied to healthcare. Runs the financial control and reporting side of every engagement.

db@mainspringhcp.com · 650-418-2280

Tell us about the facility.

We will say within one conversation whether we can have leadership in the building this week, and what it would involve.
